Subject: Contact Information for Flint Citizen

Hi Mark,

The citizen who called our office is **Citizen Name / Ex. 6** (Personal Phone / Ex. 6). As we discussed, he wanted officials to know that an elderly woman from Flint died recently (February 24) - and based on an autopsy report shown to him by a family member, he understands that the death was caused by *Legionella*. He is meeting with the niece of the elderly woman on Tuesday and asked if our office would like to meet her in order to get more information or see the report.

Thank you for offering to put him in touch with the health department. Since our office doesn't have the medical expertise to evaluate the situation, it's more appropriate to have the health department meet with her.

Take care,
Kim
